- Blocksmith
 Cabinutmake
- Computer Numerical Control (CNC) Programmer (C of Q Required)
- Composte Structures Technician

 Die Designer (C of Q Required)

- Draftsperson Machanical
 Draftsperson Pastic Mould Design
 Draftsperson Tool and Die Design

- Electrical Control (Machine) Builder
 Electrical Control (Machine) Builder
 Electrician Signal Maintenance
 Elevating Devices Mechanic
- Entertainment Industry Power Facilities Mechanic
- Facilities Technician Fitter-Assembler (Motor Assembly)
- General Machinist
- Hydraulic/Pneumatic Mechanic
- Industrial Electrician
 Industrial Mechanic Milliwright
 Instrumentation & Control Technician
- Light Rail Overhead Contact System Lineperson
- Machine Tool Builder & Integrator

 Metal Fabricator (Fitter)
- Mould Designer
- Mould Or Die Finisher
- Mould Maker
 Copics Technician (Lens & Prism Maker)
- Packaging Machine Mechanic
- Precision Metal Fabricator
- Pressure Systems Welder (C of Q Required)
- Process Operator Food Manufacturing Process Operator — Power
- Process Operator Refinery, Chemical and Liquid Processes
 Process Operator Wood Products
- Pump Systems Installer/Mechanic
- Railway Car Technician
- Relay and instrumentation Technician Roll Grinder/Turner
- Saw Filer/Fitter
 Ski Lift Mechanic
- Surface Blaster
- Surface Mount Assembler
- Technician
 Thin Film Technician
- Tool And Cutter Grinder
- Tool and Die Maker
- Tool And Gauge Inspector
- Tool/Tooling Maker Tractor Trailer Commercial Driver
- Water Well Driller

◆● Welder

Voluntary Trade

Compulsory Trade

Red Seal Trade

What is Apprenticeship?

- Apprenticeship is a workplace-based training program for people who want to work in a skilled trade.
- 80% of the apprenticeship in on-the-job under the supervision of skilled tradespeople.
- 20% occurs at a post-secondary institution or other approved training organization.
- Apprentices are workers so they can earn while they learn a trade.
- An apprenticeship can take between 2 5 years to complete

Types of Apprenticeships

- Compulsory Trade: the apprentice must train under a journeyperson qualified/certified in the selected trade. Journeypersons and Apprentices must be members of the Ontario College of Trades e.g. automotive service technician, electrician, hairstylist, plumber
- Voluntary Trade: the apprentice may train under an experienced mentor, but does not have to complete an apprenticeship to work in that trade. Tradespersons are not required to be a member of Ontario College of Trade. Apprentice must be member of the Ontario College of Trades. e.g. carpenter, cook, welder
- Red Seal: Interprovincial Standards Program which allow for greater mobility of skilled trades workers across Canada.

Find an Employer/Sponsor

Register with MTCU/Ontario College of Trades

Apprenticeship Training Agreement/ContractSchool, Training Standards, Hours

Certificate of Apprenticeship

Final Exam

Certificate of Qualification

Pathways to Apprenticeship

- St. Mary Co-op/OYAP (Ontario Youth Apprenticeship Program): Grade 11 and/or 12.
- Employer/Apprentice Connection: Apprentice finds an Employer to sponsor them. Apprentice & Employer register with the MTCU Apprenticeship Office and sign a Training Agreement.
- Union or Industry Approved Training: Some unions or trade associations run their own training centres.
- Private Career Colleges: These programs vary in time, length, expense and effectiveness in placing students in apprenticeships
- Other: Community service (e.g. Habitat for Humanity), part-time employment (e.g. home improvement stores)

Pathways to Apprenticeship

- Pre-Apprenticeship Programs: Offered by colleges, approved apprenticeship deliverers, community agencies. Programs are up to 52 weeks in duration, and may include Level 1 apprenticeship in-school training, safety training, and an 8 to 12 week work placement.
- Co-op Diploma Apprenticeship Programs: Ontario colleges combine a college diploma and apprenticeship training leading to a Certificate of Qualification.
- College Certificates or Diploma Programs: Applied Arts or Technology Certificates or Diplomas related to skilled trades. [ontariocolleges.ca: keywords = pre-trades, trades, apprenticeship]

Some examples of Skilled Trades Programs at College

Trades Fundamentals at Durham College

 www.durhamcollege.ca/programs/trades-fundamentals

 8 month, Ontario College certificate. Subjects: basic automotive, carpentry, electrical, HVAC, industrial maintenance, machining, plumbing, and welding. May lead to entry into other Trades programs.

 Trades Fundamentals at Fleming College flemingcollege.ca/programs/trades-fundamentals
 month, Ontario College certificate. Subjects: health & safety, carpentry, plumbing, welding.
 May lead to entry into other Trades programs.

Some examples of Skilled Trades Programs at College

 Construction Trades Techniques at George Brown www.georgebrown.ca/T126-2015-2016/

1 year, Ontario College Certificate; topics: electrical, millwrighting, sheet metal/air conditioning, carpentry, welding/steamfitting, and plumbing.

- Automotive Service Technician Pre-Apprenticeship
 www.centennialcollege.ca/programs-courses/full time/automotive-service-technician-pre-apprenticeship/
 36 weeks/3 phases, Ontario College Certificate. Tuition-free, earn Level 1 Technician training, and receive assistance in finding short work placement.
- Apprenticeship Programs at Centennial www.centennialcollege.ca/programs-courses/apprenticeshipprograms/

Training Agreement

- The Training Agreement is an agreement between the apprentice, sponsor and the Ministry of Training, Colleges and Universities, for your particular trade.
- When you sign the agreement, you are agreeing to:
 - Maintain your membership with the Ontario College of Trades
 - Complete all the required levels of school
 - Complete the skills outlined in the Training Standard
 - Complete the number of hours listed on your Training Agreement
- Once you have completed these requirements, you will be eligible to complete your apprenticeship and write the final exam.

Apprenticeship Training Standard Log Book

Automotive Service Technician

310S

Apprentice Training Standard

- Specific to industry
- ATS should be signed off regularly as skills of the trade are acquired.
- Your personal log for the duration of apprenticeship regardless of employer so must be kept up to date.
- www.collegeoftrades.ca/training-standards

In-School Training

- For most basic apprenticeships, there are 3 levels of inschool training:
 - Basic (Level 1)
 - Intermediate (Level 2)
 - Advanced (Level 3)
- It is usually 1 1.5 years after the registration date, before an apprentice is offered a spot in class.
- All colleges used the wait-list system. Apprentices are placed on the wait list for their preferred college.
 Position is determined by registration date.

- 1) Start with Research
 MTCU Apprenticeship Office, Apprenticesearch.com, Ontario
 College of Trades, Unions/Associations
- 2) Prepare your resume, cover letter, references etc
- 3) Find your Employer/Sponsor
- 4) Get Registered

Submit Application for Apprenticeship Training to MTCU office. Following a probationary period, MTCU will request a Training Agreement to be signed by Apprentice and Employer. Apprentice registers with Ontario College of Trades (OCOT).

5) Track

Your hours worked, skills learned and demonstrated in the Training Standards manual, in-school training sessions. Employment Training Consultant will monitor sponsors and apprentices throughout the program.

- 6) Write your Certificate of Qualifications exam
- 7) Pass C of Q exam = Licensed/Certified Journeyperson

Cost of Apprenticeship

Costs

- \$60/year for Ontario College of Trades membership
- Up to \$500/in-school training session (90% of school cost covered by MTCU)
- \$150 to write
 Certification of
 Qualifications Exam

Incentives

- Loans for Tools
- Apprenticeship Incentive Grant
- Apprenticeship Completion Grant
