ACE | Direct Entry | CICE

Academic and Career Entrance Program (ACE)

Many if not most colleges offer academic and career entrance programs.

These programs allow students who are lacking the prerequisites in English, Mathematics or Science to upgrade their knowledge and meet the admission requirements.

To find a program go to the schools website and search for ACE.

Education After High School

High school is often the beginning of your educational journey. Having taken a sample of courses in different areas you should have an idea of the type of career you wish to pursue.

Most college programs require students to have completed ENG 4C (College English) or ENG 4U (University English), but each year colleges add more programs for students who have taken ENG 4E (Workplace English)

Before you decide which destination is best for you, be sure to check out some of the new programs offered for students with ENG 4E (Workplace English).

Community Integration Through Cooperative Education (CICE) / College Vocational

Community Integration through Cooperative Education (CICE) / College Vocational is a two year program designed for students with intellectual disabilities or significant learning challenges.

Through supported college courses and cooperative placements the students develop the skills to improve their academic and vocational skills.

This program is not offered at all colleges so be sure to check your desired school for program availability.

CICE is a competitive program which includes an interview component. Applications are handled through the Ontario Colleges application site at www.ontariocolleges.ca

Please don't think that this list contains your only options. If there is a school that interests you, contact them for more information.

Below you will find a listing of schools, followed by the program name. Next to the program name is a number or code in brackets. That is the course code you can use to search each schools website.

Make sure you confirm that you have the required courses before applying to any program.

Durham College

Community Integration through Cooperative Education (CICE)

Forklift Operator (full-time) (AUTO 1425)
